command any one basilly.

**WHY VEGETABLES?**

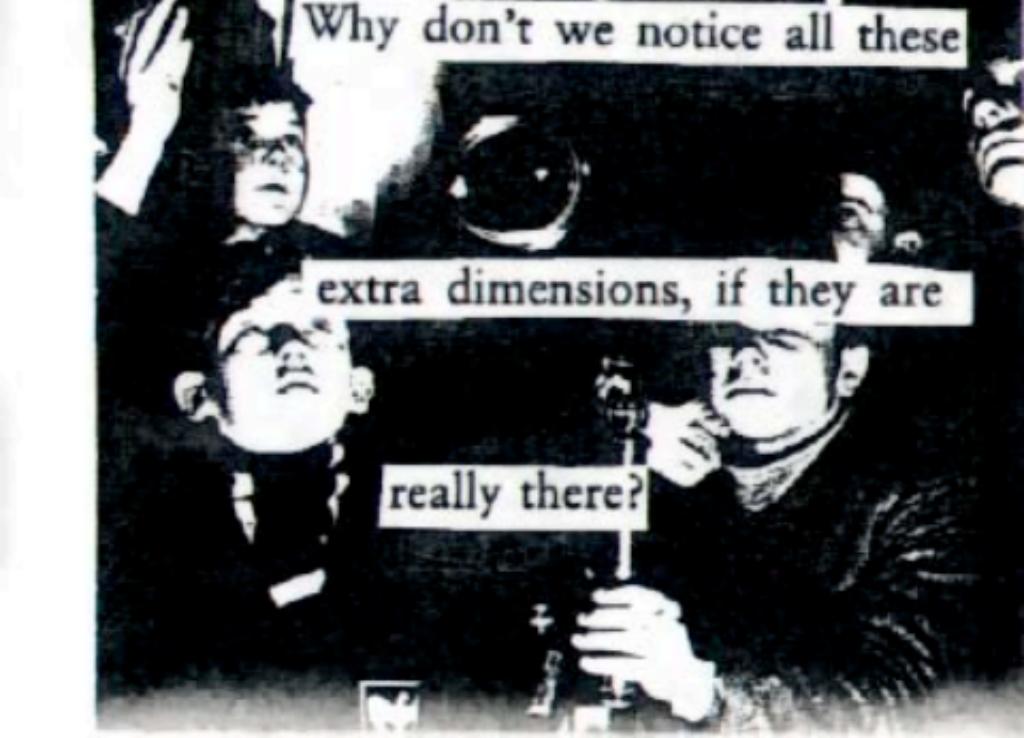

I understood a good deal of

what was going on

Why don't we notice all these

extra dimensions, if they are

really there?

Everything that I reckoned moving

seemed the  
best way of unifying gravity  
with the  
texture of my mind.  
and  
with  
other forces.

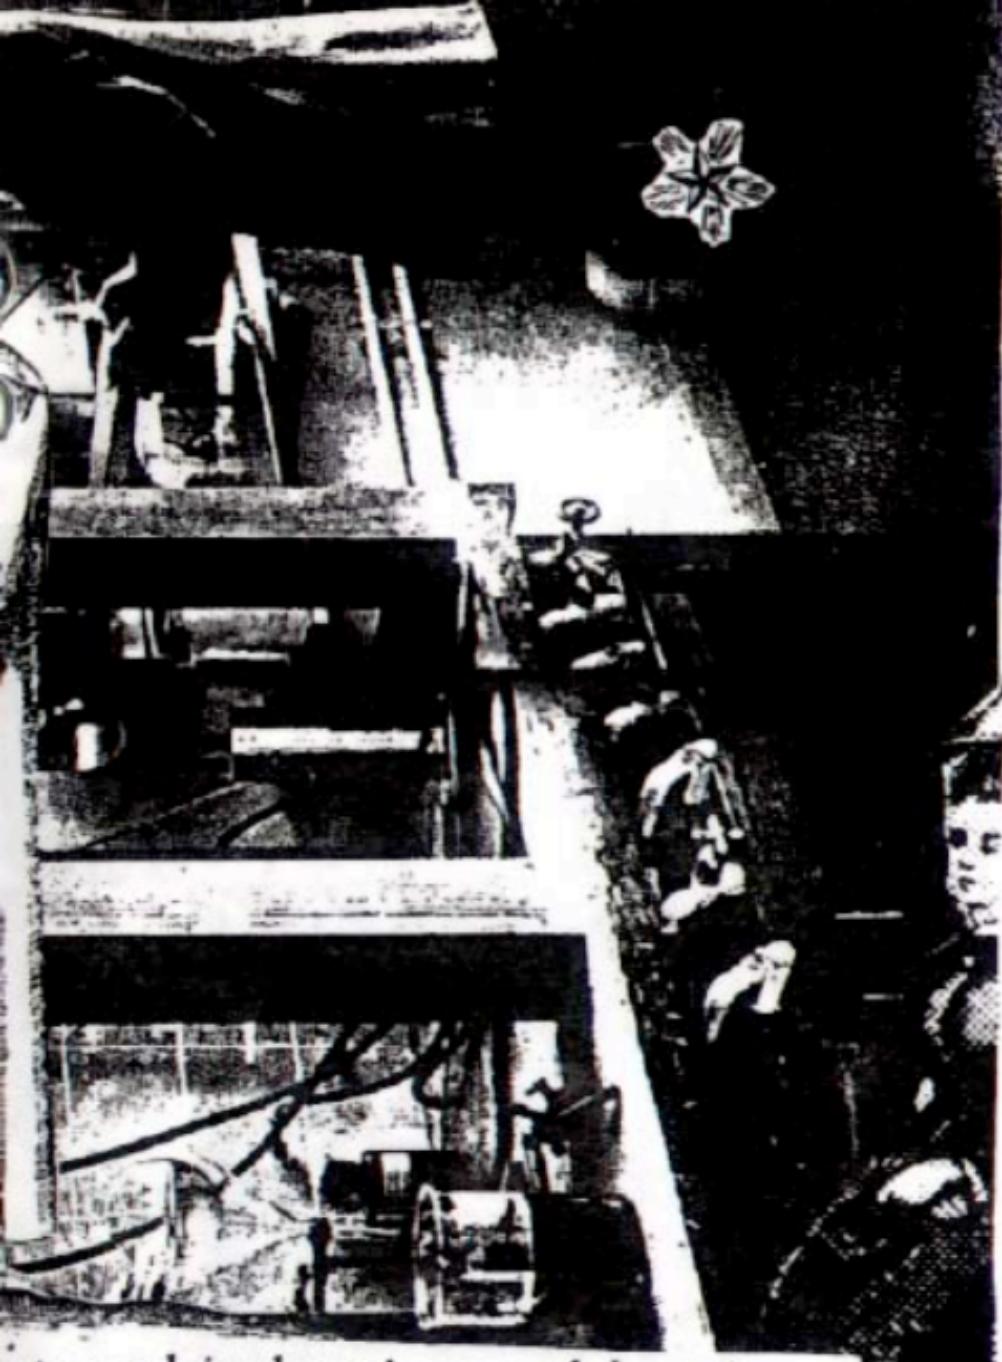

55

It seems to me that there is

in each of us a capacity

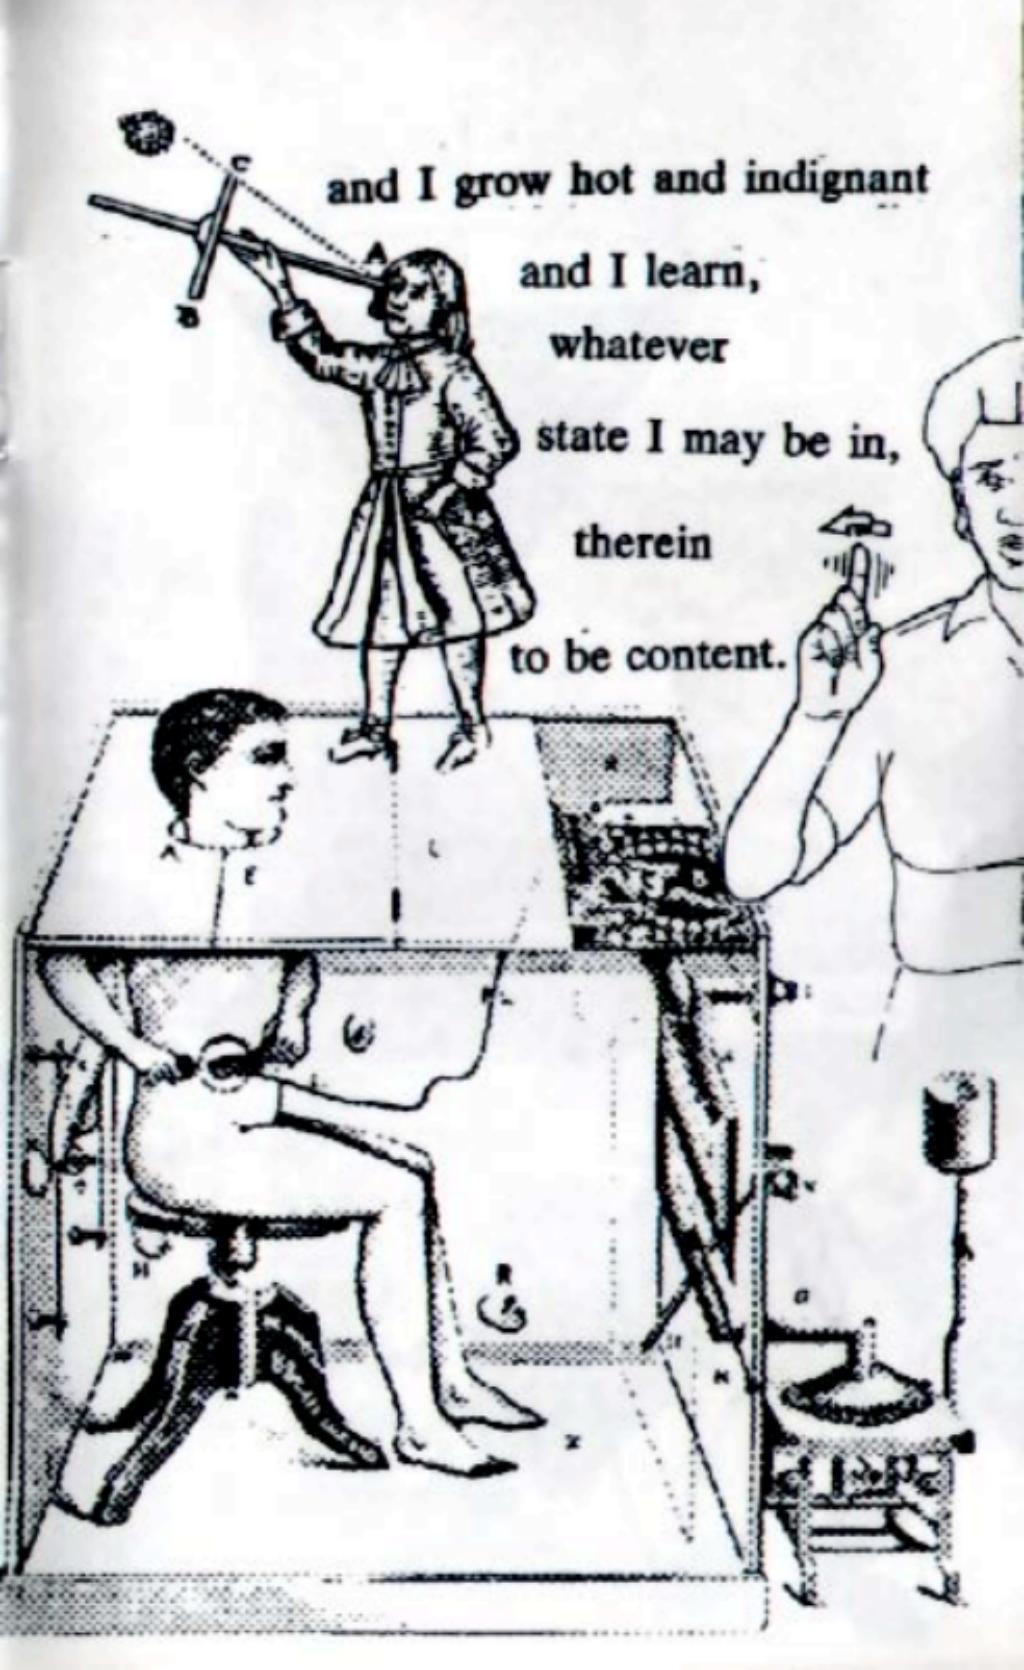

T. Columbia

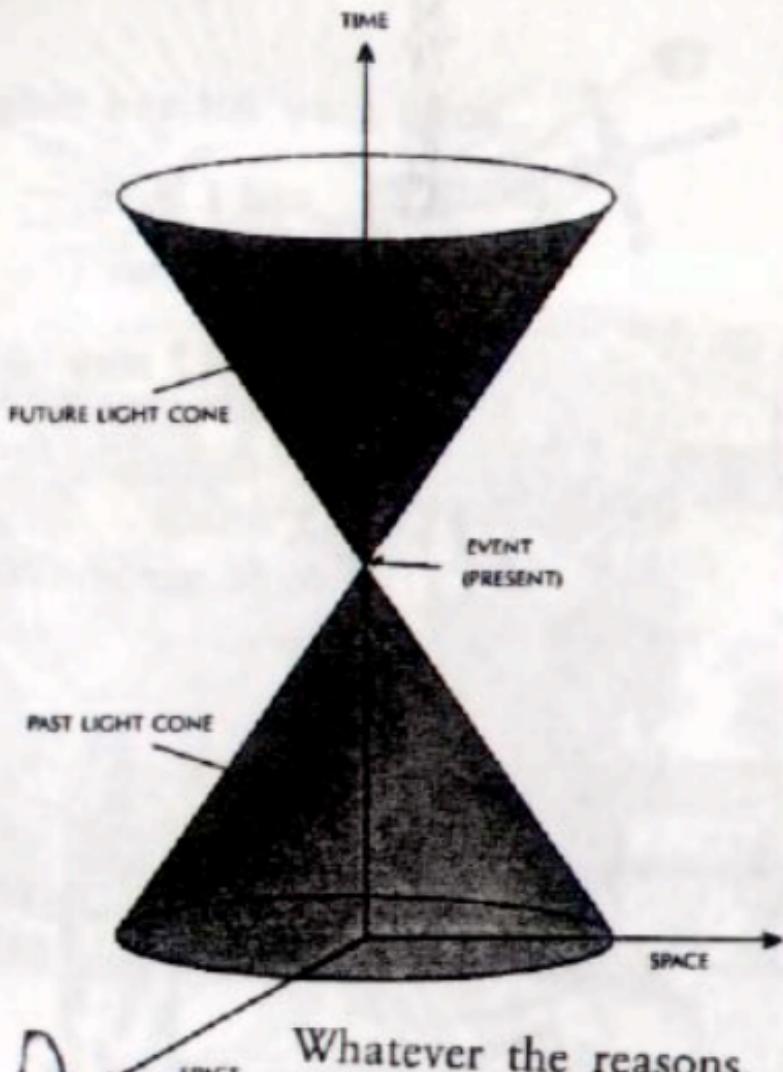

to explain the existence of the universe.

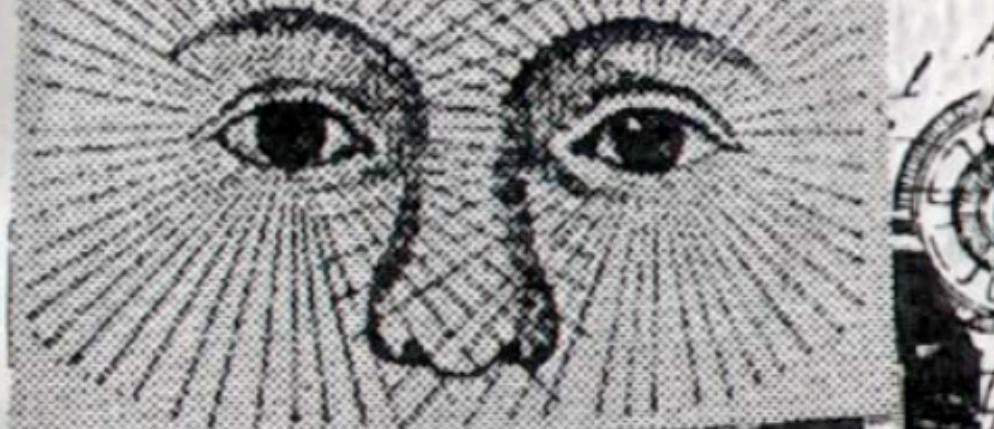

the universe  
might be expanding.  
I knew on my fingers.

and I grow hot and indignant  
and I learn,  
whatever  
state I may be in,  
therein  
to be content.

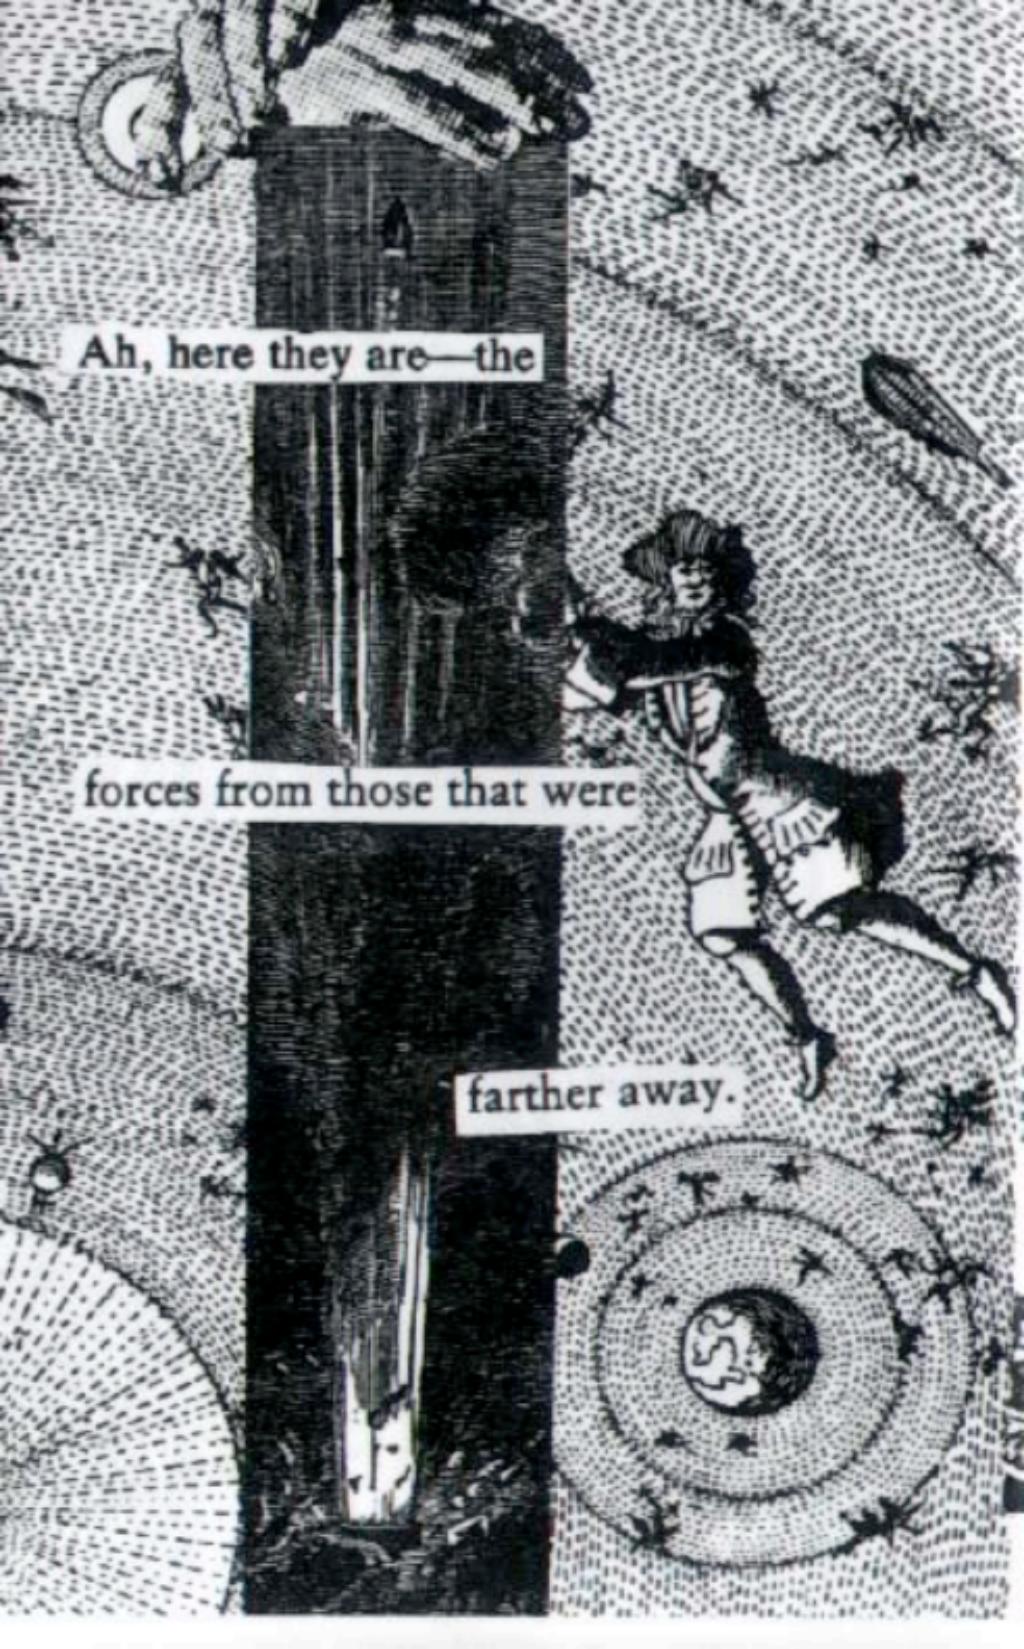

Whatever the reasons,  
It shows me that  
I could express  
beautiful  
and poetic ideas  
the surface of a star.

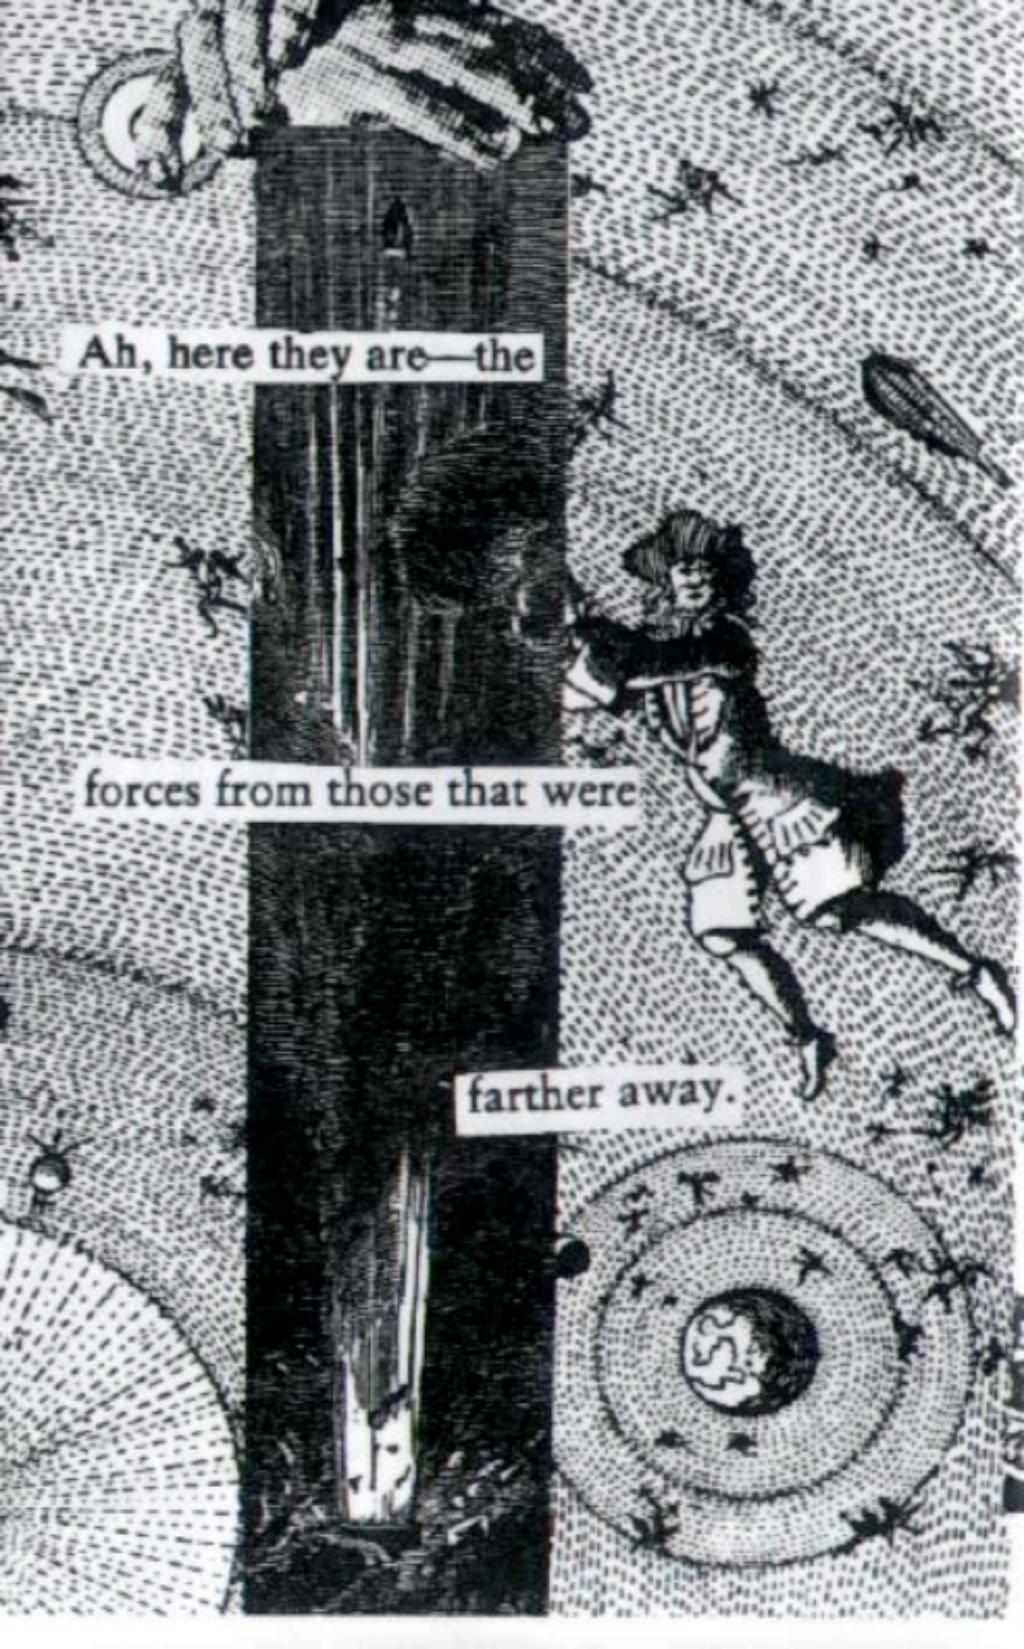

bright as the sun,

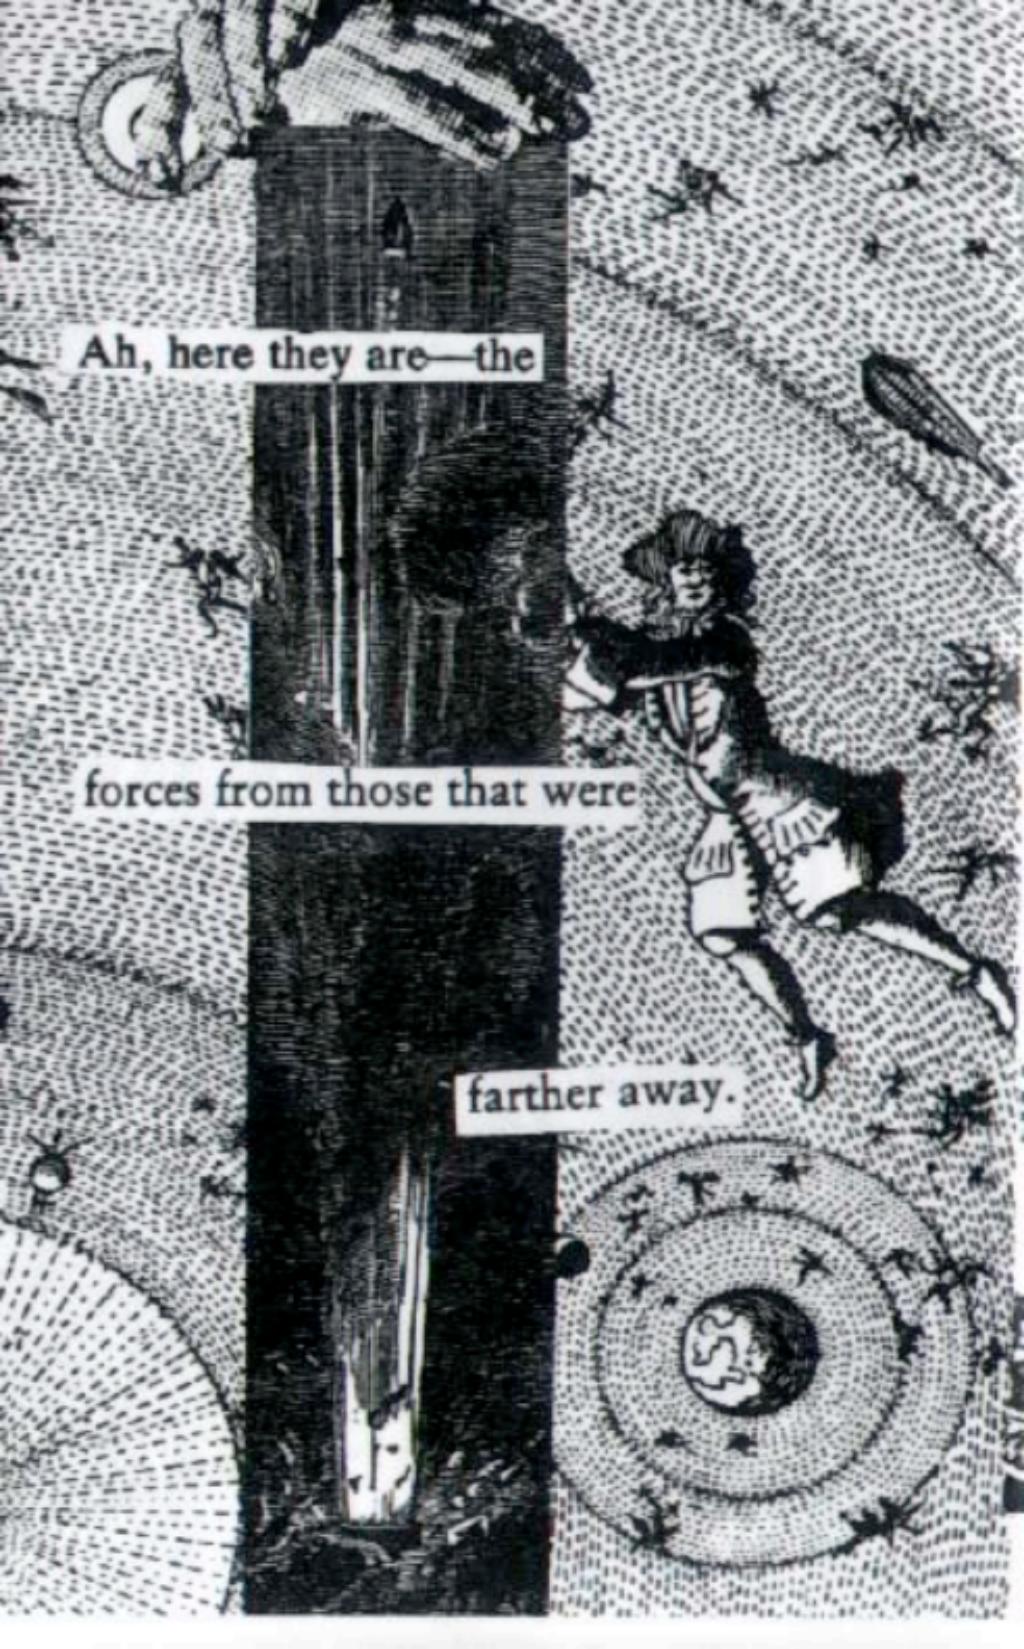

even at night.

Ah, here they are—the

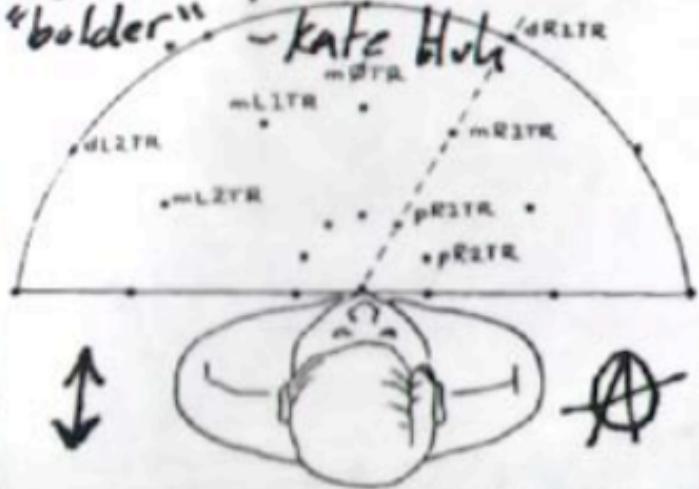

forces from those that were

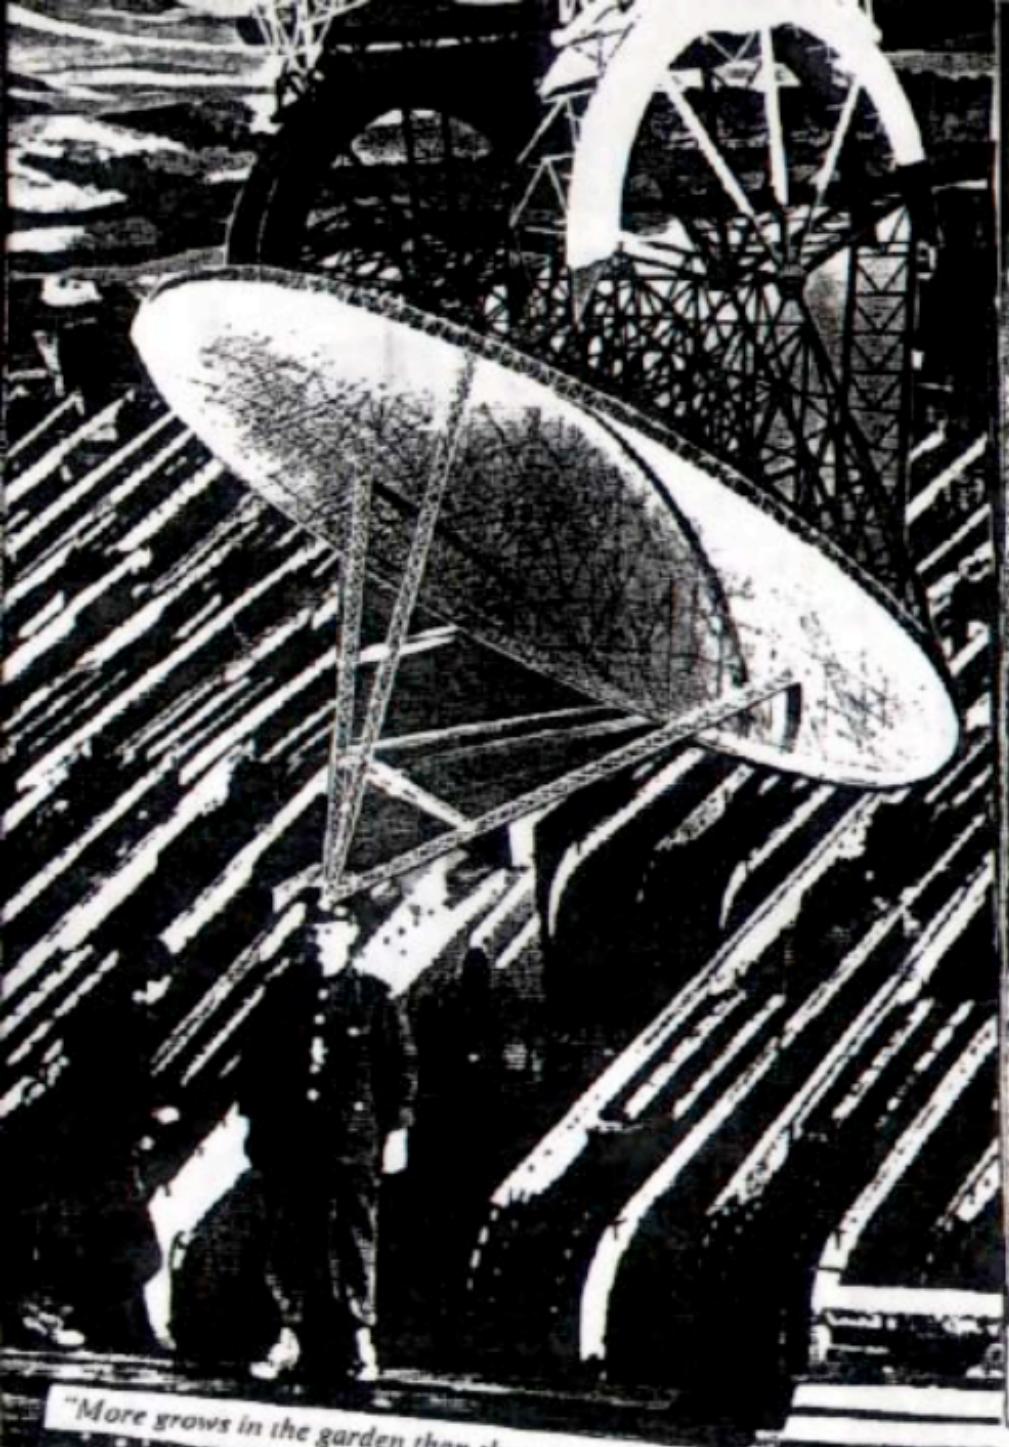

farther away.

# Where Are All The Baby Pigeons?

I asked my friend, Dora, (who knows about birds), she told me, "In their nests, or they would be dead." (she was in a bad mood when I asked her) I explained that someone had asked me this, and it seemed like a reasonable question. Then Dora warmed up and told me that you can tell the younger pigeons by their (less scaly) feet and because they are "bolder." -kate hole
